### CUSTOMISED NEW VEHICLES ENHANCE SAFARIS AT &BEYOND BATELEUR CAMP September 2015

In Kenya's Masai Mara, travellers on an African safari package may frequently spend most of their day jostling along rough tracks in search of the famous local wildlife, including the vast wildebeest herds of East Africa's renowned Great Migration. Given the amount of time spent driving around the rolling hills of the Masai Mara, the right choice of safari vehicle is crucial to ensuring the comfort of a luxury safari in Kenya.

As part of its commitment to enhancing the guest experience at its safari lodges and camps even further, &Beyond is investing into revamping the safari vehicles offered to its guests in the Masai Mara. With this in mind, &Beyond Bateleur Camp has recently added five brand new customised four-seater safari vehicles to its fleet. Designed to offer the best Kenya safari, these luxurious vehicles each feature a canvas roof for shelter from the African sun, as well as a stylish wooden interior finish, leather trim on roll bars and seats and detachable sides that can be rolled up or down depending on the weather.

With comfort and convenience in mind, a fridge has been installed in each vehicle's interior to provide easy access to cold drinks and fresh snacks. Four seats instead of eight provide additional room, while reclining seats with the option to adjust for leg room cater for the comfort of taller travellers. Keen photographers will benefit from handy camera mounts, as well as charging points for camera batteries and other photographic equipment.
