&BEYOND

TITLE   : C# .Net Web Developer
LOCATION   : &Beyond Bateleur House
CONTACT PERSON   : Claudette Grundling – claudette.grundling@andbeyond.com

&Beyond is built, almost entirely, on the strength of remarkable people who give passionately to their roles, work tirelessly, and have the guest experience at the core of their focus daily and care of the sustainability of our communities and environment. Every single '&Beyonder' makes a huge difference to our success and our contribution to the world, regardless of their role or function. For this reason we choose '&Beyonders' very carefully – they are the strength and the future of this company.

The C# .Net Web Developer will be involved with the development and support of major business applications. The successful applicant will have to use his/her skills and experience to find technical solutions to business problems. The person will strive to securely deliver accurate information via websites in way that is stable, functional and visually appealing.

The .Net Web Developer will report to the Systems Manager.

KEY OUTPUTS:
- Analyse business objectives and investigate options for solutions design (supported by the system team).
- Design, build, and maintain Web Interfaces, using authoring and scripting languages, content creation tools and management tools.
- Develop visually aesthetic and user-friendly pages in line with current web standards for desktop and mobile platforms
- Develop backend interfaces to access database information, with assistance from the SQL development team
- Produce lean and reusable code
- Review and test existing code to ensure that it is valid, sufficiently optimised, properly structured and meets industry standards
- Ensure web content is compatible with predefined browsers, devices, or operating systems.
- Maintain good technical knowledge of applicable web technologies and programming practices
- Contribute to creating and running testing, maintenance and bug-resolution processes.
- Create and maintain documentation relating web development and maintenance
- Investigate and resolve reported technical issues

Projects and Changes
- Liaise with project managers, team members, end-users and 3rd parties to meet project deliverables
- Deliver on tasks that contribute towards successful and timely project delivery
  Contribute to creating and updating of Project documentation

General

Revised – April 18

- Establish and maintain a positive relationship with fellow &Beyonders, service providers and internal ICT team members
- Contribute to the creation of Systems policies, procedures and technical documentation
- Pro-actively identify threats that could impact IT services negatively and opportunities that could improve the uptime or value of IT services
- To plan and implement changes while adhering to change control procedures.
- Achieve a satisfactory level of technical and professional skill and knowledge in position-related areas; keeping abreast of current developments and trends in area of expertise.
- Log all work in the service desk system

SKILLS REQUIRED:
- Consistent high standard of personal presentation
- Expert communication skills, both verbal as well as written
- Good Microsoft Office usage skills
- Exceptional troubleshooting skills

EXPERIENCE REQUIRED:
- 3 years' experience working with Information Technology, focusing on C# ASP.NET MVC/MVVM - design, development and testing.
- Experience of Transact-SQL, HTML, CSS, JavaScript/Jquery and Angular JS in a working environment.
- Practical knowledge of Server Environments and IIS.
- Good knowledge of Information system terminologies, concepts, functions, policies, and procedures
- EF/LINQ, AngularJS, Bootstrap, Web Services or Web API experience
- LAS/SASS, WFC/SOAP, Dev Express and TFS experience would be advantageous but is not a requirement

Education/qualifications:
- Relevant Certification, IT Diploma or Degree required

PERSONAL ATTRIBUTES:
The successful candidate should: have an enquiring mind, be methodical, pay attention to detail, show perseverance and patience, possess the ability to work under pressure and multi-task, possess the ability to put thoughts and ideas on paper, have high energy level, be flexible, be organized, possess the ability to overcome obstacles and persist with the task at hand, be adaptable, be diligence and self-motivated, be passionate about technology and delivering exceptional service.

We reserve the right not to make an appointment.
